

## ON Innovation

Every business needs to innovate, but few know where to start. ON Innovation, gives leaders seventy-two simple but powerful ideas they can use to create a more innovative organization. Drawing from his experience as founder and CEO at Travelocity.com and from the ten other startups where heâ€™s worked, Jones helps readers turn innovation from an academic exercise into an everyday skill. The stories from his career and personal experiences provide well-chosen real world illustrations of how challenging, and ultimately rewarding, it can be to gather a team and establish a culture that is open to change and is committed to innovation as the way to do business. The short chapters seem to be perfectly tailored to todayâ€™s time crunched business leaders. Itâ€™s easy to envision readers doing whatâ€™s advised in â€œHow To Read This Bookâ€•: opening it to a random chapter when theyâ€™re facing a challenge and drawing inspiration from wherever then land.
