

Fundamentals of Gifted Education: Considering Multiple Perspectives

The field of gifted education is characterized by a confusing array of perspectives concerning such fundamental issues as definition, philosophy, curriculum, social and emotional development, and underserved populations. The mission of this book is to provide a coherent framework that instructors and service providers can use in planning effective programs, providing appropriate counseling services, and evaluating programs for the gifted. Most sections are organized around fundamental issues confronting the field and follow a common structure: an introductory chapter that provides historical and theoretical background and organizing questions followed by several point-of-view chapters written by experts that provide varied perspectives on the topic at hand.

Distinguishing Features
Comprehensive Coverage “The book’s forty-five manageable-length chapters cover the full range of topics that must be considered in planning programs and services for gifted students both within and outside of school.”
Coherent Structure “Section introductions provide background information and organizing questions to guide chapter authors who provide varying views of the issue at hand. The emphasis is not on the right way or the wrong way (except when clearly documented bad practice is discussed), but on how best practice stems from well-informed and logical decision-making.”
Decision Making Focus “The book’s introductory chapter addresses the need for a clearly developed and

consistently applied set of values to guide decision making. Likewise, each section introduction includes a decision making framework regarding some aspect of educating, counseling, or parenting gifted students. This book is appropriate for introductory level courses in gifted education or courses in program development and planning. It is also suitable for school personnel responsible for making program planning decisions in the area of gifted education and for academic libraries with holdings in this area.
