

Beating the Boomer Bust

The “Beating the Boomer Bust” eBook, is a collection of articles focused on the unique challenges facing the business community due to the large population of retiring Baby Boomer business owners. The selections were taken from the writings on John F. Dini’s weekly column on business ownership, *Awake at 2 o’clock in the Morning?* It is the product of a year of research, and of fifteen years helping business owners prepare to leave their companies. Small business owners in America are ignoring a tidal wave of change that, just like a real tidal wave, will leave a few small businesses untouched while wiping many others from the face of the planet. Those who are exiting now will still have some options.
