From reviews of the book: ^

^ Rather than simply presenting the necessary content, the author makes you feel like she is talking directly to you... ^ I love that diversity that has been woven throughout the fabric of this text... ^ Ormrod's

personalized writing style will reach undergraduate students in a way that few authors can. [The book] is concise, yet thorough; comprehensive, yet

unpretentious.^ --Angela

Bloomquist, California University of Pennsylvania ^

^ Compared to other texts, Ormrod's text is written in a more accessible way... ^

Strengths [include] accessibility, good use of supplementary materials, [and] updated

research.^ --David Yun Dai, ^

University at Albany, SUNY ^

^ Love how each chapter discusses diversity and special

needs! ... Most students keep this text throughout their teaching

careers as a resource. ^ Of all the educational psychology textbooks

that I've used, this one is the

most comprehensive and interactive with vivid examples...
. The supplemental materials are very useful. The power point is extensive and easy to use for lecture. I use the test bank materials and find the questions to be aligned with students' licensure exams.
