

# Oil & Gas Production in Nontechnical Language

This nontechnical treatment is a great introduction to oil and gas production for anyone from beginning petroleum engineering and geology students to accountants, salespersons, and other professionals interested in the industry. Co-authored by Martin Raymond, a veteran production manager, and William Leffler, one of the top petroleum nontechnical writers, it is an easy-to-read reference for those who deal with petroleum industry personnel and production issues in their jobs, but need a quick overview of the technical and business issues. Complete with helpful charts and diagrams, this book covers everything from production equipment and processes to theory, business operations, and strategies.
