

Subjects Matter: Every Teachers Guide to Content - Area Reading

Grades 7-12

Finally, a book about content-area reading that's just as useful to math, science, and history teachers as it is to English teachers! Lively, practical, and irreverent, *Subjects Matter* points the way to activities and materials that energize content and engage students across all subject areas.

This book features:

- 23 practical classroom activities that help students understand and remember what they read, in mathematics, science, social studies, English, and more
- a tough analysis of today's textbooks, along with specific ways to use them more effectively
- a new "balanced diet" of reading, including 150 books of interest to teenagers
- instructions for growing a rich classroom library in your subject area
- plans for setting up student book clubs and reading groups in any discipline
- group-building techniques that create a productive community of readers
- a do-it-yourself exploration of the ways smart readers think
- models for developing ambitious thematic units within your classroom or with colleagues
- special help and materials for students who struggle
- scientific proof that the book's recommended activities do improve reading and learning.
