Check with the seller before completing your purchase. This access code card provides access to the Enhanced Pearson eText. In *Creative Thinking and Arts-Based Learning: Preschool Through Fourth Grade, 6/e* Joan Packer Isenberg and Mary Renck Jalongo show future and current early childhood educators how to integrate children's creativity, play, and the arts into their curriculum in a way that fosters learning and growth and meets accountability measures, by emphasizing the use of technology to enhance creativity and the arts, with myriad suggestions to differentiate instruction and make adaptations for diverse learners across the art forms. Organized into four main parts, the text covers the foundations of creative thought; examines children's play, games, and inventions; addresses the subject areas that are traditionally associated with the creative arts; delves into the teacher's role in supporting creative expression and play, assessing creative processes and products, and working with diverse families and communities; and discusses effective design and use of environments, materials, and resources. Unique boxed pedagogical features make the text more practical, readable, and helpful to the early childhood educator. Written for prospective

and practicing early childhood educators who are expected to teach in accordance with an increasing number of state, local, and national benchmarks, this proven and adaptable text will best prepare the early childhood educator for creative thinking in the classroom and beyond. The Enhanced Pearson eText features embedded videos. **^** Improve mastery and retention with the Enhanced Pearson eText* This access code card provides access to the new Enhanced Pearson eText, a rich, interactive learning environment designed to improve student mastery of content.
