

Introduction to Teaching: Becoming a Professional (4th Edition)

This best-selling case-based text, *Introduction to Teaching: Becoming a Professional*, provides tomorrow's teachers with a deeper understanding of and better preparation for the teaching profession by weaving in three themes central to teaching today—professionalism, diversity, and reform. Two central questions frame the text: “Do I want to be a teacher?” and “What kind of teacher do I want to become?” The fourth edition has been revised to provide you with a more engaging experience as you consider if you want to be a teacher and what kind of teacher you want to become. Captivating classroom-based cases and interactive features will help you reflect on your responses to topics such as the implications of increasingly diverse classrooms, the assessment and standards-driven educational climate, and more. A revolutionary new online component, MyEducationLab, provides you with interactive self-assessments and video-based activities.
