

Nfpa 101: Life Safety Code, 2012 Edition

Responsive. Progressive. Dynamic. Occupant safety takes another leap forward with the 2012 Life Safety Code! Nontraditional use of buildings...innovative designs...new technologies, materials, and construction practices. As the built environment and societal expectations change, so do the challenges to protect people from fire and related hazards. Fully updated to reflect the latest industry developments and lessons learned, the 2012 NFPA 101r raises occupant safety to a whole new level. For protecting lives in all types of occupancies -- assembly, residential, health care, industrial, and more -- nothing else comes close! NFPAs Life Safety Code is the most widely used source for strategies for occupant safety throughout the life cycle of a building. Unique in the field, it is the only document that addresses life safety in both new and existing structures. From egress, sprinklers, and alarms to emergency lighting, smoke barriers, and special hazard protection, the LSC covers it! Stay on top of important updates, including: All new high-rise buildings must comply with the high-rise building package, promoting consistency in protection regardless of occupancy type. Revisions in health care occupancy rules foster a more comfortable, home-like environment. New rules for carbon monoxide (CO) alarms or detection systems in certain residential living units Changes for exit stair enclosure path markings Egress chapter provisions for safe use of

elevators for occupant evacuation
Relaxation of the means of egress
provisions for unoccupied
building service equipment
support areas Make sure your
knowledge is up-to-date and your
jobs are up-to- code. Base your
decisions on the 2012 NFPA 101
and tackle safety challenges
effectively. (Softbound, 489 pp.,
2012)
