

Constructed-Response Tests: Building and Bettering, Mastering Assessment: A Self-Service System for Educators, Pamphlet 7

Tests that require students to generate responses from scratch can be a great way to evaluate learning, but the logistics of creating and improving short-answer and essay items are often murky. This booklet, *Constructed-Response Tests: Building and Bettering*, provides a set of guidelines for generating this type of test item and scoring students' responses. *MASTERING ASSESSMENT* is a set of fifteen practical, easy-to-use booklets covering a wide range of topics related to educational assessment and accountability. These groundbreaking booklets put the most relevant information on assessment at teachers' fingertips and provide an important resource for educators looking to learn the ins and outs of becoming assessment literate. Paired with the series *Facilitators Guide* (available for download at no additional charge from Pearson's Instructor Resource Center), *Mastering Assessment* is the perfect tool for building assessment literacy either in self-study or a professional development program. Don't miss all the books in the *Mastering Assessment Series* by W. James Popham:

Appropriate and Inappropriate Tests for Evaluating Schools
