

Making Words Fourth Grade: 50 Hands-On Lessons for Teaching Prefixes, Suffixes, and Roots

An active and innovative approach to making words that teachers and their students have grown to love is finally here! Based on its highly successful parent text, *Phonics They Use*, this new grade-level series *Making Words* offers teachers a fresh multi-level activity and lesson series written for the kindergarten through fifth grade classroom. Pat Cunningham and Dottie Hall present classroom teachers with effective tools for strengthening phonics and spelling skills that encourage students to move beyond learning and into a world of word discovery. Each research-based volume includes a wealth of friendly, hands-on, manipulative activities that guide teachers in teaching the development of words--from phonemic awareness to spelling. In *Making Words Fourth Grade*, Pat and Dottie introduce fourth grade teachers to 50 lessons that teach all the prefixes, suffixes, and root skills included in most fourth grade curriculums. Each *Making Words* activity leads children through a systematic and sequential spelling curriculum. All lessons include practice with prefixes and suffixes as children stretch out words they are making and blend the letters to make new words. Because teaching children letter-sound relationships is easier than teaching children to actually use these letter-sound relationships, all lessons include a transfer step in which children apply the sounds they are learning to spelling new words. *Making Words Fourth Grade* is the best resource you can have on hand for motivating your students

to learn words! Features 50 fun and interactive lessons for building decoding and spelling skills. Presents a concise method for involving students in the process of identifying common contractions and compound words and more complex vowel patterns within words. Promotes student awareness of similarities in words that helps develop writing skills. Includes reproducible take-home record sheets to help students build their vocabularies.
