When the goal is supporting excellent teaching, there is no one-size-fits-all approach. This popular practitioner resource and text helps readers navigate the many choices involved in developing and fine-tuning a coaching program that offers the best fit for a particular school. The authors draw on current research as well as their extensive experience in K-8 settings. They provide clear guidance (with helpful reproducibles) on:

- \*Major coaching models and how to choose among them.
- \*Applying principles of adult learning and motivation.
- \*The role of reading assessment in coaching.
- \*Balancing classroom-level, grade-level, and whole-school tasks.
- \*Special considerations in middle school coaching.

See also *The Literacy Coaches Handbook, Second Edition*, which offers a complete primer on the role of the literacy coach and what coaches need to know to get started.
