

Teaching Students with Special Needs in Inclusive Settings, MyLabSchool Edition (4th Edition)

The Fourth Edition has been crafted to increase emphasis on the IEP process by introducing preservice teachers to 14 students with disabilities and their teachers. Each student is profiled at the start of a chapter, and preservice teachers follow the teacher as they evaluate the student, write effective IEP goals and objectives, and modify instruction in a way that is appropriate for that particular student. In this way, students are prepared not only to engage in the IEP process themselves, but are reminded of the individualities among all students and the impact a teacher can have on their success in the classroom.
