

Early Literacy in Preschool and Kindergarten (3rd Edition)

Early Literacy in Preschool and Kindergarten: A Multicultural Perspective is an applied book focusing on how literacy develops in young children and the ways in which teachers can encourage the natural emergence of early reading and writing. It has a special emphasis on multicultural childrens literature, including detailed descriptions of over 200 multicultural childrens books. Packed with practical supports and strategies for teachers, such as how to set up a literacy-friendly environment; using music and art as natural languages; strengthening finger muscles for writing through 3-D art; developing visual representational skills in drawing, leading to writing; and using early literacy checklists to help understand childrens capabilities, it provides many suggestions for using classroom materials and centers to support literacy. While most early literacy texts treat preschool learning in a chapter or two, this entire text focuses on early literacy in the preschool, leading up to childrens accomplishments in kindergarten. Early Literacy in Preschool and Kindergarten: A Multicultural Perspective, Third Edition, presents an updated approach to exploring literacy with preschool and kindergarten children. The current recognition that learning to read and write can emerge naturally in young children has led the authors to develop a fresh approach by using classroom learning centers and multicultural childrens literature to involve children in their own learning.
