

Golden Quills: Creative Thinking and Writing Lessons for Middle-school Gifted Students

Contains Twenty-Seven Challenging Lessons for Stimulating Creative Learning in Language Arts! If you want to read an exciting approach to studying the English language by an individual with a longstanding connection to the genius of American creativity research, E. Paul Torrance, this is the book for you. Myers brings together the conceptual thoughts of the creativity and gifted fields in a challenging learning experience for the gifted. Michael E. Walters, Ed.D. Center for the Study of the Humanities in the Schools New York City. About the Author -- Dr. Myers has written over 30 books and dozens of articles about encouraging creative thinking. He taught gifted students for many years, and he is still in touch with over a dozen of the brightest of them. They include an artist, an actor, a lawyer, a foreign services officer who is an author of science fiction books and short stories, a carpenter, a forest ranger, and an electronics inventor.
