

A Problem Solving Approach to Mathematics for Elementary School Teachers

More than 350,000 students have prepared for teaching mathematics with *A Problem Solving Approach to Mathematics for Elementary School Teachers* since its first edition, and it remains the gold standard today. This text not only helps students learn the material by promoting active learning and developing skills and concepts, it also provides an invaluable reference to future teachers by including professional development features and discussions of today's standards. The Eleventh Edition is streamlined to keep students focused on what is most important. The Common Core State Standards (CCSS) have been integrated into the book to keep current with educational developments. The Annotated Instructor's Edition offers new Integrating Mathematics and Pedagogy (IMAP) video annotations, in addition to activity manual and e-manipulative CD annotations, to make it easier to incorporate active learning into your course. MyMathLab is available to offer auto-graded exercises, course management, and classroom resources for future teachers. To see available supplements that will enliven your course with activities, classroom videos, and professional development for future teachers, visit www.pearsonhighered.com/teachingmath
