

Gifted, Bullied, Resilient: A Brief Guide for Smart Families (Perspectives in Gifted Homeschooling Book 7)

Gifted kids, with their often asynchronous development, eclectic interests, and intense emotions, can be prime targets for bullying. What can compassionate parents, friends, and educators do to help these kids rise above the bullying and become emotionally stronger and more self-assured? In her second book, *Gifted, Bullied, Resilient: A Brief Guide for Smart Families*, author Pamela Price draws upon her experience as a journalist and gifted parenting advocate to provide concerned adults with a plan of action. She introduces readers to contemporary research, an array of social learning best practices, real-life anecdotes from veteran parents, and select resources relevant to the families of bullied gifted kids and adolescents. The slender, informative, and insightful text is geared both toward parents of public and private school students, as well as homeschoolers in cooperative learning environments.
