

Appropriate and Inappropriate Tests for Evaluating Schools, Mastering Assessment: A Self-Service System for Educators, Pamphlet 1

Schools today are often mistakenly evaluated by standardized test results, sometimes leading teachers to employ instructional approaches detrimental to their students education. This booklet, *Appropriate and Inappropriate Tests for Evaluating Schools*, uncovers why many of these tests are ineffective and presents more appropriate assessments as alternatives. The Mastering Assessment series is a set of fifteen practical, easy-to-use booklets covering a wide range of topics related to educational assessment and accountability. These groundbreaking booklets put the most relevant information on assessment at teachers' fingertips and provide an important resource for educators looking to learn the ins and outs of becoming assessment literate. Paired with the series Facilitators Guide (available for download at no additional charge from Pearson's Instructor Resource Center), Mastering Assessment is the perfect tool for building assessment literacy either in self-study or a professional development program.
