From reviews of the book:

^œRather than simply presenting the necessary content, the author makes you feel like she is talking directly to you... ^ I love that diversity that has been woven throughout the fabric of this text... ^ Ormrod's personalized writing style will reach undergraduate students in a way that few authors can. [The book] is concise, yet thorough; comprehensive, yet unpretentious.^ --Angela Bloomquist, California University of Pennsylvania ^

^~Compared to other texts, Ormrod's text is written in a more accessible way... ^ Strengths [include] accessibility, good use of supplementary materials, [and] updated research.^ --David Yun Dai, ^

University at Albany, SUNY ^ ^œLove how each chapter discusses diversity and special needs! ... Most students keep this text throughout their teaching careers as a resource. ^ Of all the educational psychology textbooks that I've used, this one is the most comprehensive and

interactive with vivid examples...
. The supplemental materials are very useful. The power point is extensive and easy to use for lecture. I use the test bank materials and find the questions to be aligned with students' licensure exams. --Cindy Ballantyne, Northern Arizona University
