

Developing Partnerships with Families Through Children's Literature

This book blends information on contemporary families, research on early literacy, and practical strategies for sharing children's literature in classrooms, homes, and pre-school settings. Content is based on the belief that adult-child interactions around story-reading play a significant role in fostering and developing children's language and literacy skills. This role manifests itself differently according to the social, cultural, and linguistic environment of a child's home. The authors present a selection of children's books from all genres and an array of field-tested ideas for developing early literacy. Authentic voices of teachers, children, and family members illustrate vivid descriptions of successful teacher-family partnerships and literacy strategies that work. ^À
