

Strategic Planning That Works

Strategic Planning is more than a thinking exercise about the future. It is regular dialogue about allocation of resources and the impact of those resources against a stated organizational direction. This book will show you how to create a viable strategic plan incorporating your organizations unique business insights, talents, and resources into an action plan with realistic goals and objectives. You will learn about your current situation, including hidden internal & external barriers, and how to frame key strategic choices that your organization faces. You will develop recommendations around your capabilities and resources and learn how to execute the new strategy.
