Viewpoints, a book in the Multiage Differentiated Curriculum Kit for Grades 4-6, asks students to examine the concept of viewpoints from many different and exciting angles. The books in Prufrocks new Multiage Differentiated Curriculum Kits employ a differentiated, integrated curriculum based on broad themes. This all-in-one curriculum helps teachers save planning time, ensure compliance with national standards, and most importantly, pique their students natural excitement and interest in discovery. By participating in the wide variety of activities in the Multiage Differentiated Curriculum Kit for Grades 4-6, students will discover various viewpoints and gain a lifelong desire to learn. From the history of child labor laws, to optical illusions, students will learn to consider other perspectives as they learn the process of formal debate. In one particular activity, students examine the different ways that viewpoints can be expressed through art, such as with linear perspective, orientation, orthogonals, and materials. Viewpoints, along with the other books in the Multiage Differentiated Curriculum Kit for Grades 4-6 (Balances, Choices, Explorations, and Questions), makes teaching advanced learners easier!
