

Make: More Electronics: Journey Deep Into the World of Logic Chips, Amplifiers, Sensors, and Randomicity

Want to learn even more about electronics in a fun, hands-on way? If you finished the projects in *Make: Electronics*, or if you're already familiar with the material in that book, you're ready for *Make: More Electronics*. Right away, you'll start working on real projects, and you'll explore all the key components and essential principles through the book's collection of experiments. You'll build the circuits first, then learn the theory behind them! This book picks up where *Make: Electronics* left off: you'll work with components like comparators, light sensors, higher-level logic chips, multiplexers, shift registers, encoders, decoders, and magnetic sensors. You'll also learn about topics like audio amplification, randomicity, as well as positive and negative feedback. With step-by-step instructions, and hundreds of color photographs and illustrations, this book will help you use -- and understand -- intermediate to advanced electronics concepts and techniques.

Make: More Electronics: Journey Deep Into the World of Logic Chips *Make: More Electronics: Journey Deep Into the World of Logic Chips, Amplifiers, Sensors, and Randomicity* 1st Edition If you finished the projects in *Make: Electronics*, or if you're already familiar with the material in that book, you're ready for *Make: More Electronics: Journey Deep Into the World of Logic Chips*. Booktopia has *Make: More Electronics, Journey Deep into the World of Logic Chips, Amplifiers, Sensors, and Randomicity* by Charles Platt. Buy a discounted *Make: More Electronics: Journey Deep Into the World of Logic Chips*. If you finished the projects in *Make: Electronics*, or if you're already familiar with *Journey Deep Into the World of Logic Chips, Amplifiers, Sensors, and Randomicity*, you'll also learn about topics like audio amplification, randomicity, as well as *Jun 30, 2016 - 19 sec - Uploaded by B. Meinhard* *Make More Electronics Journey Deep Into the World of Logic Chips Amplifiers Sensors and* *MAKE: MORE ELECTRONICS - Elektor* *Make: More Electronics: Journey Deep Into the World of Logic Chips, Amplifiers, Sensors, and Randomicity*. Be the first to *sensors*. You'll also learn about topics like audio amplification, randomicity, as well as positive and negative feedback. *Make: More Electronics: Journey Deep Into the World of Logic Chips* *Make: More Electronics: Journey Deep Into the World of Logic Chips, Amplifiers, Sensors,*
