

A World Fit For Children

The book shows that addressing the deep-seated problems in our primary and secondary education systems leads not only to a vastly improved education system - and a high status, high earning teaching profession - but to the unexpected consequence of a rebuilding of the ties that bind people into communities. What started as a personal journey in search of a practical means to improve the status and earnings of teachers evolved into a comprehensive re-evaluation of our education system and its role in society.

A World Fit for Children - Unicef A world fit for children. Declaration of the United Nations General Assembly Special Session (UNGASS) on Children. Date of publication: 2002.
