Creative Thinking and Arts-Based Learning: Preschool Through Fourth Grade (5th Edition)

"Why should educators be concerned about creative thought and artistic expression at a time when tough talk about academic standards, teacher accountability, and international ranking on tests dominates the educational scene?― Â **Â** Creative Thinking and Arts Based Learning, Fifth Edition, argues that the ability to think in innovative and productive ways is a survival skill in a world where we are inundated daily with information. The authors' vision for this book is that it will equip practitioners in the fields of early childhood and elementary education to influence schools and communities to regard the creative processes and artistic products of children's minds with a new appreciation and respect. Â In order to achieve this goal, the authors have grounded their content with the very latest theory and research on creative thought and play. A They have provided case studies in every chapter where real teachers describe how they have integrated play and the arts into their curriculum. Â They have included opportunities for self-reflection in their Teachers Reflection feature Reflections and their Your feature. They have offered a of self-expressive collection activities and suggestions for teachers to use that are grounded in child-centered practice. A Yet, encouraging while the incorporation of play and the arts, they have also acknowledged the importance meeting of benchmark standards at the local, state, and national levels through the Meeting the Standards feature in every chapter and the Chapter
