

Making Science Accessible to English Learners: A Guidebook for Teachers, Updated Edition

This updated edition of the bestselling guidebook helps middle and high school science teachers reach English learners in their classrooms. The guide offers practical guidance, powerful and concrete strategies, and sample lesson scenarios that can be implemented immediately in any science class. It includes Rubrics to help teachers identify the most important language skills at five ELD levels; Practical guidance and tips from the field; 7 scaffolding strategies for differentiating instruction; 7 tools to promote academic language and scientific discourse; Assessment techniques and accommodations to lower communication barriers for English learners; 2 integrated lesson scenarios demonstrating how to combine and embed these various strategies, tools, techniques, and approaches; And much more. The volume is designed for teachers who have had limited preparation for teaching science in classrooms where some students are also English learners.
